

GIST Research Institute Research Proposal 2023

Research Title				
Research Area <i>(Choose one)</i>	<input type="checkbox"/> Carbon reduction and renewable energy <input type="checkbox"/> Air pollution and climate change <input type="checkbox"/> Implementation of water treatment technology in field			
Principal Investigator	Name	(Last) (Middle) (First)	Title	Dr/Mrs./Mr
	Nationality	(write both if you hold the dual citizenships)		Country of residence
	Organization Name			
	Affiliation			
	Telephone Fax No.		E-mail	
	Resident Address			
Research Duration	January 1- Dec 31, 2023			
Research Budget	Korean Won			
Number of Researchers Participating	Co-Investigator	Research Assistant (Ph.D or MSc student)		Other participants

Here I propose a research proposal to the International Environmental Research Institute (IERI), and agree to conform to the rule posed by the Gwangju Institute of Science & Technology (GIST).

Attachments: 1. Research Proposal

2. Principal Investigator's CV with a list of publications
(Including the 1st page of each published article)

Date: 2023. 01. 01

Name of Principal Investigator:

Submitted to

Director of International Environmental Research Institute:

Gwangju Institute of Science & Technology

Research Title :

- ※ No specified format is required.
- ※ The entire proposal from Executive Summary to section 5 should be 5 pages or less.
- ※ Content Font type : Times New Roman, Content Size: 12, Line Spacing: 1.5
- ※ Title Font type : Times New Roman, Content Size: 14, Line Spacing: 1.5

Executive Summary (less than 1 page)

1. Backgrounds of the Research

2. Objectives of the Research

3. Research Design and Methods

4. Expected Outcomes (including the strengths and challenges)

5. Literature Cited

6. Participating Researchers

Research Field	Name (Last. First)	Affiliation	Title	Task

Number of researchers by degree among total () persons
Ph.D. : MSc : B.S. : Other :

7. Budget Expenditure

A. Total budget expenditure

(Unit: Thousand Korean Won)

	Planned amount (KRW)	Percentage (%)	Remarks
1. PERSONNEL (researchers and students who are hired by the PI or CO-PI for the proposed research)			
2. DIRECT COSTS			
Travel & Diems			Conferences (Allocate budget for IFOCA 2020) Field sampling travel
Instrumentation			Purchase and rent
Materials and supplies			Chemicals Reagents Equipment
Trial manufacture			
Fees and commissions			Printing Copying Analysis Posting Field sampling (Local transportation, labor charge, car rent etc)
Information dissemination			Hosting Seminars Discussion and data meeting

3. INDIRECT COSTS (If the PI's institute regulates a certain amount of contribution from the grant to support the proposed research)			
Sum total			

B. Detailed Budget

(Unit:Thousand Korean Won)
